Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 21, line 2, there is no antecedent basis for “the body” and “the motor vehicle”.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Egner-Walter (EP 0950586).

The patent to Egner-Walter discloses the invention as is claimed including a wiper device (fig.1) having a carrier (16) attached to a first part (1) via a rotational locking element (6). The locking element features an elliptical first section (7,8) that is longer in cross section than it is wide. The carrier has an opening (15) therein which is penetrated by the first section of the locking element. The first part is for attachment to the body of a vehicle. A catch (21) is provided on the first part to lock the locking element in position after ascending a slant (23,24). An elastic, damping bush (13) is arranged between the locking element and the opening. The locking element has an engagement (20) which enables it to cooperate with a tool if so desired.

With respect to claim 1, it appears the locking element of Egner-Walter will have a predetermined breaking point, at least as far as defined. Upon the application of sufficient and appropriate force, the locking element will be subject to breakage as far as defined. Note that no particular structure for the locking element has been set forth that differentiates applicant's locking element from Egner-Walter's.

With respect to claims 7 and 16, note that a groove is defined between portions (7,8) and collar (18). Such is considered to be in the first section, as far as defined.

With respect to claims 9 and 18, setting forth the manner in which the first part is made does not act to distinguish applicant's first part from that of Egner-Walter in this product claim.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary K. Graham whose telephone number is 571-272-1274. The examiner can normally be reached on Tuesday to Friday (7:00-5:00).
